CHRYST AFANGBEDJI

SOC Analyst | Cybersecurity Analyst | Security+ | CySA+ | eJPT
Pittsburgh, PA | (412) 320-6422 | cea1013@sru.edu | linkedin.com/in/chryst-afangbedji

SUMMARY

Cybersecurity student with hands-on SOC experience triaging security alerts and managing email security in an enterprise internship, plus home labs building detection pipelines in **Splunk** and **Microsoft Sentinel**. Looking for an entry-level **SOC Analyst** or **Cybersecurity Analyst** role.

EDUCATION

Slippery Rock University **Expected May 2027**
B.S. in Cybersecurity | NSA Center of Academic Excellence (CAE) designated program *Slippery Rock, PA*

CERTIFICATIONS

CompTIA CySA+ (CS0-004) - Expected Nov 2026 | **CompTIA Security+** - Feb 2026 | **eJPT** (INE) - Aug 2025

TECHNICAL SKILLS

- **SIEM & Detection:** Splunk, Microsoft Sentinel, KQL, Snort IDS/IPS, MITRE ATT&CK, log analysis, alert triage
- **Network Security:** pfSense firewall, Wireshark, Nmap, TCP/IP, DHCP, DNS, NAT
- **Identity & Cloud:** Active Directory, Windows Server 2022, Entra ID, Microsoft Azure, AWS, IAM, Mimecast
- **Systems & Scripting:** Kali Linux, Ubuntu, Metasploit, ServiceNow, Python, PowerShell, Bash, Java, JavaScript

EXPERIENCE

PITT OHIO **May 2026 - Aug 2026**
IT&S Intern *Pittsburgh, PA*

- Triaged daily security alerts and administered business email protection in the **Mimecast** admin console, reducing the number of phishing emails that reached users
- Provisioned and managed user access across **Microsoft Azure, Entra ID, and Active Directory**, resolving incidents and requests in **ServiceNow** and streamlining access provisioning
- Supported **Citrix DaaS** virtual desktops and troubleshot end-user issues, reducing downtime
- Shadowed the network team on enterprise network operations using **Nmap** and **Linux**

Slippery Rock University **Aug 2025 - Present**
IT Help Desk Technician *Slippery Rock, PA*

- Resolve an average of **30+ tickets per week** with a **95% satisfaction rate**, supporting students, faculty, and staff by phone, email, and in person within SLA using **ServiceNow**
- Troubleshoot hardware, software, and connectivity issues on **100+ campus devices** with remote-desktop tools and **Wireshark** for network analysis

CyberForce 2025 Competition (U.S. DOE) **Nov 2025**
Blue Team Competitor *Virtual*

- Defended **AWS**-hosted infrastructure in a live attack simulation; investigated alerts through log and network traffic analysis, detecting and mitigating privilege escalation, misconfigurations, and exposed services

SECURITY PROJECTS & HOME LABS

Network Perimeter Defense & SIEM Monitoring Lab | *pfSense, Snort, Splunk*

- **Problem:** A simulated 100-user corporate domain had no firewall, IDS, or central logging, leaving malicious traffic unseen
- Deployed **pfSense** as the edge firewall (NAT, DHCP, filtering), ran **Snort IDS/IPS** on the LAN with GPLv2 Community rules, and forwarded firewall and IDS alerts over syslog to a **Splunk** SIEM
- **Result:** Firewall and IDS events for the whole domain land in one SIEM for triage

Active Directory Enterprise Environment | *Windows Server 2022, PowerShell*

- Built a **Windows Server 2022** domain controller (AD DS, DNS, DHCP) with a domain-joined Windows 10 client
- **Result:** Onboarded **100 users** into an Employees OU with a **PowerShell** script instead of manual setup, and isolated admin rights in a dedicated privileged account

Cloud Threat Monitoring & Honeypot Lab | *Microsoft Azure, Sentinel, KQL*

- **Problem:** Needed to see who was brute-forcing an internet-exposed host; connected **Microsoft Sentinel** to a Log Analytics Workspace and wrote **KQL** to analyze thousands of failed logons
- **Result:** Geo-enriched events via a Sentinel Watchlist and built a workbook map of attacker origins for faster triage

Exploitation of Web & Network Services | *Kali Linux, Nmap, Metasploit*

- Exploited misconfigured FTP, SMB, and HTTP services and escalated privileges on Linux and Windows lab targets

LEADERSHIP & ACTIVITIES

Secretary, Cyberspace Club (cybersecurity workshops and hands-on labs) | **Member**, Black Action Society
